Malir City - 75050, Karachi, Pakistan

OBJECTIVE

I am an enthusiastic Frontend Developer with a strong focus on designing and developing responsive, user-friendly web interfaces using **HTML, CSS, and JavaScript**. Proficient in modern frameworks like **React** and styling libraries such as **Tailwind CSS**, I have a keen eye for detail in crafting seamless user experiences. I specialize in building dynamic, interactive web applications that ensure optimal performance across all devices.

SKILLS

- **Programming Languages:** JavaScript
- **Web Technologies:** HTML, CSS, React JS, Tailwind CSS, Vite Webpack, Netlify
- **Version Control:** Git and Github

EXPERIENCE

- **Front-End Software Engineering Intern [⊕]**   *Feb 2025 - March 2025*
  Forage (SkyScanner)   Remote
  ○ Developed a web application using React as a front-end engineer at Skyscanner, simulating real-world software engineering tasks.
  ○ Implemented a travel date selection page utilizing Skyscanner's open-source Backpack React library, enhancing user interaction.
  ○ Customized the application and conducted automated tests to ensure proper rendering and functionality.

EDUCATION

- **Iqra University**   *Oct 2022 - Oct 2026*
  BS Entrepreneurship   Karachi, Pakistan
  ○ GPA: 3.5/4.00

PROJECTS

- **Password Generator**   *October 2024*
  Tools: [HTML , CSS, JAVASCRIPT]   [⊙]
  ○ Built a password generator using JavaScript to create strong, random passwords.

- **Movie Website**   *December 2024*
  Tools: [Tailwind CSS and React JS]   [⊙]
  ○ Developed a movie website with React JS for seamless browsing and streaming.
  ○ Integrated TMDb API for dynamic movie data, improving content accessibility.

- **My Portfolio**   *January 2025*
  Tools: [Tailwind CSS and React JS, Figma]   [⊙]
  ○ Built my portfolio website using React.js and Tailwind CSS, focusing on a modern, responsive, and visually appealing design.
  ○ The site effectively highlights my skills, projects, and experience while maintaining a clean and user-friendly interface.

- **E-commerce Website**   *February 2025*
  Tools: [React, Tailwind CSS]   [⊙]
  ○ Developed a fully responsive E-commerce Website using React and Tailwind CSS..
  ○ Featured products, categories, and promotions, displayed products with filters and sorting options, detailed view of individual products, managed items in the shopping cart.
